

Prepar	red on: 23/09/2008	Revised on: 24/01/2023
1. 1	Designation of the substance and/or mixture and of the company	
1.1.	Product identifier	
	WESSOCLEAN GOLDLINE Application solution	
1.2.	Relevant identified uses of the substance or mixture and uses	
	Biocidal application	
1.3.	Details of the supplier of the safety data sheet	
	WESSO AG Wacholderweg 6 90518 Altdorf b. Nürnberg Telefon: +49 (0) 9187 7069711 Fax: +49 (0) 9187 7069712 E-Mail: contact@ wesso.com	
1.4.	Emergencynumber	
	WESSO AG (available during office hours) - Tel. +49 (0)9187 7069711	
2.	2 Potential hazards	
2.1.	Classification of the substance or mixture	
	According to regulation (EC) No. 1272/2008	

Hazard class	Category	Hazard class and category	Hazard statements
May be corrosive to metals	1	Corrosive to Metals	H290
Serious damage to eyes/eye irritation	2	Eye Irritation	H319
Hazardous to the aquatic environment – Chronic	3	Aquatic Chronic 3	H412

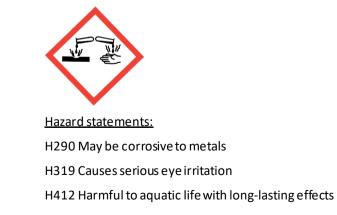

Additional information:

---

2.2. Labelling elements

<u>Signal word:</u>Danger

GHS Pictograms: GHS05

	Precautionary statements:
	P234: Keeponly in original packaging.
	P264: Wash hands thoroughly after handling.
	P273: Avoid release to the environment.
	P280: Weareye protection.
	P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	P337 + P313 If eye irritation persists: Get medical advice/attention.
	P390: Absorb spillage to prevent material damage.
	P501: Dispose of contents and container to an approved waste disposal plant in accordance with national regulations.
2.3.	Other hazards
	All chemicals are potentially dangerous. They should therefore only be handled by specially trained personnel with the necessary care.
	No components of the mixture are classified as PBT- oder vPvB-substances.
3.	Composition / information on ingredients
3.1.	Substances
	Not applicable
3.2.	Mixtures
<u>Perac</u>	Setic acid: CAS-Nr. 79-21-0 EG-Nr. 201-186-8 Percentage: 50-300 ppm Classification according to regulation (EC) No. 1272/2008: Flam. Liq. 3 H226, Org. Perox. D H242, Acute Tox. 4 H302, Acute Tox. 4 H312, Skin Corr. 1A H314, Acute Tox. 4 H332, Aquatic Acute 1 H400 Specific concentration limits: STOT SE 3; H335: C≥1%
<u>Hydro</u>	Ogen peroxide:       CAS No. 7722-84-1       EC No. 231-765-0         Percentage: 1 - 5 %       Classification according to regulation (EC) No. 1272/2008:         Ox. Liq. 1       H271, Acute Tox. 4       H302, Acute Tox. 4 H332, Skin Corr. 1A         Specific concentration limits:       STOT SE 3; H335; C ≥ 35 %; Eye Dam. 1; H318: 8 % ≤ C < 50 %; Eye Irrit. 2; H319: 5         % ≤ C < 8 %; Ox. Liq. 1; H271: C ≥ 70 %; Ox. Liq. 2; H272: 50 % ≤ C < 70 %
	<u>c acid:</u> CAS No. 64-19-7 EC No. 200-580-7 Percentage: <0,1% Classification according to regulation (EC) No. 1272/2008: Flam. Liq. 3 H226, Skin Corr. 1AH314
<u>Ethar</u>	<u>iol</u> :CAS No. 64-17-5 EC No. 200-578-6 Percentage: 1 - 5% Classification according to regulation (EC) No. 1272/2008: Flam. Liq. 2 H225,, Eye Irritat. 2 H319

<u>lsopr</u>	opylalcohol: CAS No. 67-63-0 EC No. 200-661-7
	Percentage: 1 - 5%
	Classification according to regulation (EC) No. 1272/2008: Flam. Liq. 2 H225, Eye Irrit. 2 H319, STOT SE 3 H336
<u>Sulpł</u>	nuricacid (25%): CAS-Nr. 7664-93-9 EG-Nr. 231-639-5 Percentage: <0,1%
	Classification according to regulation (EC) No. 1272/2008:
	Met. Corr. 1 H290, Skin Corr. 1A H314, Eye Dam. 1 H318
4.	First aid measures
4.1.	Description of the first aid measures
	IF INHALED: If symptoms occur call a POISON CENTRE or a doctor. IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor. IF ON SKIN: Wash skin with water. If symptoms occur call a POISON CENTRE or a doctor.
	IF IN EYES: Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 5 minutes. Call a POISON CENTRE or a doctor.
4.2.	Environment:
	Avoid direct release of the undiluted product to the environment and sewage system. Cover the liquid with absorbent material. Contain and collect for disposal. No further relevant information available
4.3.	Indication of immediate medical attention or special treatment
	No further relevant information available
5.	Fire-fighting measures
5.1.	Extinguishing agents
5.1.	Extinguishing agents Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown
5.1. 5.2.	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water
	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown
	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising from the substance or mixture
5.2.	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising from the substance or mixture Thermal decomposition can lead to the formation of corrosive gases or vapours.
5.2.	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising from the substance or mixture Thermal decomposition can lead to the formation of corrosive gases or vapours. Information for fire-fighting
5.2. 5.3.	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising from the substance or mixture Thermal decomposition can lead to the formation of corrosive gases or vapours. Information for fire-fighting Use breathing apparatus with independent air supply. Protective suit.
5.2. 5.3. <b>6.</b>	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising from the substance or mixture Thermal decomposition can lead to the formation of corrosive gases or vapours. Information for fire-fighting Use breathing apparatus with independent air supply. Protective suit. Accidental release measures
5.2. 5.3. <b>6.</b>	Suitable extinguishing media: Foam, dry powder, carbon dioxide, water Unsuitable extinguishing media: Unknown Special hazards arising fromthe substance or mixture Thermal decomposition can lead to the formation of corrosive gases or vapours. Information for fire-fighting Use breathing apparatus with independent air supply. Protective suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Avoid contact with skin and eyes.

7.4. U	se specific instruction	
	Please see label and produ	ect specification sheet for detailed information.
8. L	imitation and monitoring of	f exposure / personal protective equipment
8.1. P	arameters to be monitored	
	<u>Hydrogen peroxide</u> : EU refe <u>Peracetic acid</u> : EU reference <u>Ethanol</u> : 380 mg/m <sup>3</sup> or 20 <u>Isopropyl alcohol</u> : EU reference	ce value = 0.5 mg/m <sup>3</sup>
8.2. L	imitation and monitoring of	fexposure / personal protective equipment
	Protective clothing should possible hazardous substar	be selected in their design according to the conditions of use and depending on nee concentrations.
	Eye protection: Skin protection: Respiratory protection: Industrial hygiene:	Tightly fitting safety goggles Protective gloves (nitrile rubber, t = 0.6 mm) Avoid inhalation of vapours/aerosols. For application of large quantities respiratory protection may be required (combination filter NO). Immediately change contaminated clothing. Preventive skin protection. Wash hands before breaks and at end of work.
	At work do not eat, drink o	r smoke.

**Physical and chemical properties** 9. 9.1. Information on basic physical and chemical properties Appearance: Colourless to light yellow liquid characteristic (tartish, fruity) odor Odour: pH value concentrated (20°C): 3.24 Density (20°C): 1.005 g/cm<sup>3</sup> Flash point: 56 °C Flammability: category 3 for flammable liquids **Risk of explosion:** No hazard if used and stored properly Explosive property Solubility in water (20°C): Miscible in all proportions 9.2. Other information ---10. Stability and reactivity 10.1. Reactivity : See Section 10.2. to 10.6. 10.2. Chemical stability: The product is chemically stable under standard ambient conditions. 10.3. Potential dangerous reactions: Under normal conditions and uses, no hazardous reactions are known. 10.4. Conditions to avoid: Thermal stress 10.5. Incompatible materials: Strongly oxidising materials, strong acids and bases 10.6. Hazardous decomposition products: No data available 11. **Toxicological information** Product Acute oral toxicity LD<sub>50</sub>: > 2000 mg/kg body weight Irritations: - On the eve: Eve irritation Sensitisation: No sensitising effects known Carcinogenicity: Not carcinogenic Mutagenicity Not mutagenic Reproductive toxicity: Not reprotoxic Additional information: The product should be handled with the care usual when dealing with chemicals. **Peracetic acid** Value Study Safety factor n.a.; PAA does not cause AEL long-term systemic effects1 AEL medium-term n.a.; PAA does not cause \_ \_ systemic effects1 n.a.: PAA does not cause **AEL** acute \_ \_ systemic effects1 NOAEC dermal 0.2 % Human Volunteer Study Assessment-Report (RMS medium/short-term Finland (2015) NOAEC dermal 0.1% Rabbit one year study Assessment-Report (RMS medium/short-term Finland (2015) Assessment-Report (RMS  $0.5 \text{ mg/m}^{3}$ Human data (NOAEC 0.5 **AEC** inhalation ppm) Finland (2015) ARfD n.a.; PAA does not cause systemic effects1 <sup>1</sup> Assessment-Report (RMS Finland (2015)

## 12. Environmental information

#### 12.1. Toxicity:

Summary table F	PNECvalues		
Substance		PNEC	Based on
PAA	surface water	0.069 μg/L	NOEC for D. rerio 0.69 μg/L, AF 10
	STP	0.051 mg/L	
	soil	0.282 mg/kg <sub>ww</sub>	seedling emergence test with non-
			target plants (Brassica napus), AF 1000
H2O2	surface water	12.6 μg/L	NOEC for D. magna 0.63 mg/L, AF 50
	STP	4.66 mg/L	
	soil	0.0018 mg/kg <sub>ww</sub>	EPM
Propan-2-ol	surface water	2.82 mg/L	NOEC for D. magna 141 mg/L, AF 50
	STP	10 mg/L	
	soil	0.496 mg/kg <sub>ww</sub>	EPM

## 12.2. Persistence and degradability:

Readily biodegradable

12.3. Bio-accumulative potential:

Not accumulative

12.4. Mobility in soil:

No further relevant information available.

12.5. Results of PBT and vPvB assessment:

Not PBT or vPvB

12.6. Endocrine disrupting properties:

Neither the product nor any ingredient possess endocrine disrupting properties.

12.7. Other adverse effects:

There are no further adverse effects.

12.8. Additional information: --

#### 13. Information on disposal

Residues of the biocidal product must be disposed off in accordance with the Waste Framework Directive (2008/98/EG) and the European Waste Catalogue (EWC) as well as national and regional regulations.

Do not empty into drains.

Dispose of contents/container to an authorised waste collection point.

Leave biocidal products in original containers. Do not mix with other wastes.

Empty the packaging completely prior to disposal. When totally empty, containers are recyclable.

14.	Transport information
14.1.	UN number
	Not applicable - Non-hazardous material as defined in transport regulations.
14.2.	Proper UN shipping name
	Not applicable - Non-hazardous material as defined in transport regulations.
14.3.	Transport hazard class
	Not applicable - Non-hazardous material as defined in transport regulations.
14.4.	Packing group
	Not applicable - Non-hazardous material as defined in transport regulations.
14.5.	Environmental hazards
14.6.	Not applicable - Non-hazardous material as defined in transport regulations. Special precautions for the user
	Not applicable - Non-hazardous material as defined in transport regulations.
14.7.	Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code
	Not applicable
Addit	tional information: Non-hazardous material as defined in transport regulations.
15.	Regulations
15.1.	Safety, health and environmental regulations / Specific regulations for the substance or mixture
	Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP)
	Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP) Regulations of biocidal products (BPR, REGULATION (EU) No 528/2012)
	Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP)
15.2.	Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP) Regulations of biocidal products (BPR, REGULATION (EU) No 528/2012) Storage class VCI: 12
15.2.	Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP)Regulations of biocidal products (BPR, REGULATION (EU) No 528/2012)Storage class VCI:12Water hazard class1 (slightly hazardous for water)
